

Our Occupational Therapy Institute has opened since September 2016 at the Teaching Hospital of Toulouse, (South West of France). A modern approach to training is proposed at this institute. Indeed, the teaching is focused on the Science of Occupational Therapy based on different models such as MCREO (COPM), MOH (MOHO), and Australian Model... We would like to develop ERASMUS exchange in order to allow our students to discover other methods for Occupational Therapy at a European Level. This project is linked with the Regional Council. Thus we are looking for ERASMUS traineeship agreement for next year 2018-2019. We look forward to creating new European partnerships. Should you need any further information, please do not hesitate to contact me. estrier.a@chu-toulouse.fr
